<p><b>NOTE, keep in mind that imports come from overseas and their availability is not guaranteed. Once they are out, it can take up to 2-3 months for shipments to arrive. So, please plan accordingly.</b></p> <p><b>Note Foreign sheets don't have the strict OSHA guidelines to adhere to as the US stocks do. Thus, their brightness may be similar, but their body, strength and curling may be a concern.</b></p> <p><b>NOTE, These are all import sheets and I have color coded them to what they are comparing to our domestic sheets.</b></p>
